Nilson Cera Coat

Welcome to Nilson Cera Coat

At Nilson Cera Coat, we are dedicated to delivering high-performance glaze frits for the ceramic tile industry. With over two decades of expertise, we bring innovation, consistency, and quality to every batch — supporting tile manufacturers around the world.

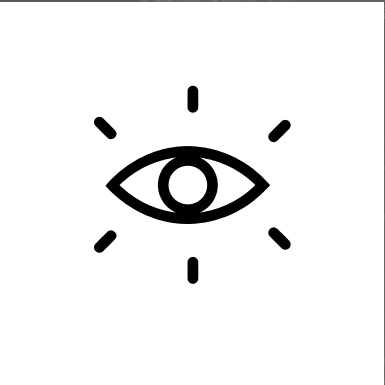

About us

Established in 2017 in the heart of India's ceramic hub, Morbi, Nilson Cera Coat has grown under the visionary leadership of the Jay Bahuchar Group established in 2010. Over the years, we've mastered the art and science of ceramic surface chemistry — specializing in advanced glaze frits engineered for modern ceramic tiles, GVT (Glazed Vitrified Tiles), and digital-printing applications. Our precision formulations, innovation-driven approach, and deep industry insight have made us a trusted name across borders.

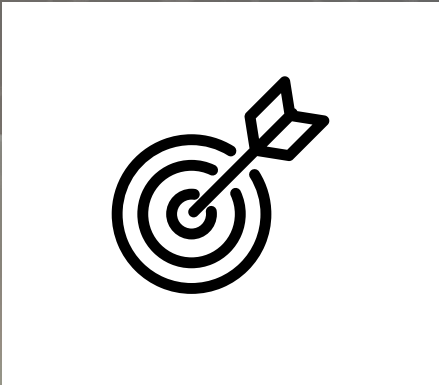

Vision and Mission

Vision Statement

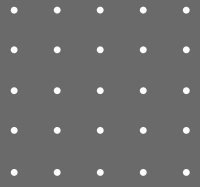

To be the most trusted global partner in ceramic frit manufacturing, known for innovation, reliability, and sustainable practices.

Mission Statement

To deliver superior frit solutions that enhance the beauty, durability, and performance of ceramic tiles while maintaining the highest standards of quality and service.

Our Products

01

Transparent Frits (TR Series)

Available in Matt, Glossy, and High-Glossy finishes. Designed for premium surface clarity and smooth finish on ceramic tiles.

02

Opaque Frits

Used to achieve vivid white or colored base coats with excellent covering power.

03

Angobe Frits

Specially formulated to improve adhesion and surface strength between tile body and glaze.

04

High Gloss & Specialty Glaze Compounds

We offer a wide range of glaze compounds tailored for various ceramic surfaces — including high gloss, matt, carving, high-depth, rustic, and satin finishes. Each formulation is engineered to enhance surface texture, visual depth, and durability.

Why Choose Us ?

Consistent Quality

Every batch we produce is rigorously tested under strict quality control measures to ensure consistent performance in your production line — batch after batch.

Custom Formulations

We understand that every tile body and design is unique. Our R&D team collaborates with you to develop glaze frits tailored precisely to your specific requirements.

Expert Technical Support

From initial product trials to on-site adjustments, our skilled technical team supports you at every stage to maximize glaze performance and finish quality.

Reliable Delivery

Timely delivery is critical in ceramics. With efficient logistics and streamlined production, we ensure your raw materials arrive when you need them — without delays.

Operations & Services

- 1. R&D Support – Innovative glaze development Custom Formulations – Tailored to your tile
- 2. On-Site Trials – Hands-on technical help
- 3. Process Consulting – Improve production efficiency
- 4. Quality Assurance – Consistent batch testing
- 5. Logistics Support – Timely, safe delivery
- 6. Color Matching – Exact tone replication
- 7. Surface Design Aid – Texture and effect support
- 8. Customer Service – Fast, responsive communication
- 9. Sustainability Focus – Eco-friendly practices
